## **Eugene Airport Ranked #1 for Facility Management Excellence**

The Eugene Airport has been awarded the International Facility Management Association's Airport Facility Council Award for Facility Management Excellence.

A panel of IFMA Airport Facilities Council judges determined the award winners in five categories based on the airport's number of annual passengers. For airports with enplanements of less than one million, the Eugene Airport was awarded first place.

Award submissions were evaluated using five criteria: leadership, innovation, sustainability, customer service and operational efficiency.

"We are very pleased with this award," said Tim Doll, Eugene Airport Director. "It shows that staff at the Eugene Airport is dedicated to providing quality facilities and services to our passengers."

The award is the AFC's highest honor, providing airport maintenance departments the opportunity for national and international recognition for their outstanding achievements in facilities management.

IFMA is the world's largest and most widely recognized international association for professional facility managers, supporting more than 18,500 members in 60 countries.

###

The mission of the Eugene Airport is to support quality airport facilities and services that meet regional needs.  
The Eugene Airport is the second busiest airport in the State of Oregon supporting commercial service and general aviation activity.
